

# Jimmy Dean, I Know What It Means To Be Lonesome

Well I know what it means to be lonesome  
And I know what it means to be blue  
Oh I know what it means to be lonesome and dream  
When nobody misses you

Well my sweet baby left me this morning  
When the clock was just striking four  
And the sweet smiling face of my darling  
I may never see anymore

[ guitar ]

Well I hate the night that we parted  
For nobody knows what I've been through  
Well I'd give all I own just to have you back home  
Cause I'm lonesome lonesome dear dor you

Well I know what it means to be lonesome....
