

# Jimmy Dean, If The Whole World Stopped Lovin'

If the whole world stopped lovin' the way you stopped lovin' me  
Have you ever stopped to wonder what kind of place this would be  
If the whole world stopped lovin' the way you stopped lovin' me  
If every heart was broken the way that you broke my own  
And the whole world stopped lovin' how long would livin' go on  
Hear the church bells in the steeple as they ring their song through the air  
If the whole world stopped lovin' there'd be no steeple bell there  
The tears would fill the river till the river's flooded the sea  
If the whole world stopped lovin' the way you stopped lovin' me  
If the whole world stopped lovin' the way you stopped lovin' me
