

Jimmy Dean, It'll Be Easy

OPRAVIT

(Break my heart) it'll be easy (tear it apart) it'll be easy
All you have to do is say our love can't be that's enough for me
(Say goodbye) tell me it's over (make me cry) hurt me all over
If you wanna break my heart it'll be easy

I can tell you're searching hard to find a way to say we're through
You're trying not to be unkind so I'll make it easy for you
Just say that you don't love me it's better not to lie
But let me keep one memory fore you say goodbye
(Break my heart) it'll be easy...
If you wanna break my heart it'll be easy
