

Jimmy Dean, Little Things

I hope I won't disturb you with this call but I'm just in town for such a little while
And I thought perhaps you'd like to hear the news
Jeannie's grades were the highest in the school
Billy sure does look a lot like you I understand your other son does too
Billy said tell mom I miss her so
These were some little things that I thought you'd like to know
If you remember Sam and Peg who lived next door
With them it seemed we always laughed so much
Well Sam and Peg don't live there anymore I understand they broke up just like us
The house we lived in now has been torn down of all the things it was the last to go
The freeway now runs through that part of town
These were some little things I thought you'd like to know
These were some little things I thought you'd like to know
