

Jimmy Dean, Love Looks Good On You

It's good to see you you're looking fine love sure looks good on you
That smile you're wearing makes it so plain to see
Love looks good on you but how this blue look on me
I'm glad you're happy and I wish you the best love sure looks good on you
Now you've got everything except my memory
Love looks good on you but how this blue look on me
Now I'll admit that he's won you and I'll admit that love becomes you
Now you've got everything except my memory
Love looks good on you but how this blue look on me
[trumpet]
I'll admit that he's won you...
Love looks good on you but how this blue look on me
