

Jimmy Dean, Rainbow Girl

Rainbow girl you chase the dark clouds out of my world
You put the sunshine back in its place you put a smile back on my face
Goodbye rain so long pain my skies turn to blue when I found you rainbow girl

Now the world got a way of looking bad
When you've lost the only love you've ever had
And I guess that mine would still be looking wrong if you hadn't come along
Rainbow girl...
[trumpet]
Life to me is just an empty glass painted with the flavor of the past
You came along and took it from my hand and filled it up with something grand
Rainbow girl...
Rainbow girl
