

# Jimmy Eat World, Always Be

Could have been a night like any other  
One of us has to drive  
One of us gets to think  
I'll force a laugh to break the silence  
It's gonna get harder still  
Before it gets easy  
You can't keep safe what wants to break

I'm alone in this  
I'm as I've always been  
Right behind what's happening  
She's lost in this  
She's like she'll always be  
A little far for me to reach

I was just a boy like every other  
I thought I was something fierce  
I thought I was ten times smarter  
Love would be something that I just know  
How you gonna know the feeling  
'Til you've lost it?  
I've been losing plenty since

I'm alone in this  
I'm as I've always been  
Right behind what's happening  
She's lost in this  
She's like she'll always be  
A little far for me to reach

Maybe something else I'm missing  
Something good and you're the reason  
It's a dream  
But there's a real world waiting

I'm alone in this  
I'm as I've always been  
Right behind what's happening  
She's lost in this  
She's like she'll always be  
A little far for me to reach

I'm alone in this  
I'm as I've always been  
Right behind what's happening  
She's lost in this  
She's like she'll always be  
A little far for me to reach
