

Jimmy Eat World, Just Tonight...

I was scared but once I thought about, I let it go
Everything she said to me I guess I ought to know
We're all tired talk when it comes to shove
Put up, put out or stay at home.

[Chorus:]

We'll never be the same, never feel this way again
I'd give you anything but you want pain.
A little water please, I taste you all over my teeth
Never again. Just tonight? Ok

All at once the music stopped, the feeling went away
An ugly picture, me and you, but nothing I can change
You know what happens with the lights back on
The less you know the more you want (you want, you want)

[Chorus x3]
