

Jimmy Eat World, Sparkle

She's got a worry I don't know
Only 19 in this picture
Don't take the mystery away from me; I'm so sorry
Now promises were made and broken as they're told
What makes you put trust in me?

With such a worried heart
You'll spend your lifetime waiting
I'm only asking once
To catch the sparkle fading
Away somewhere behind your eyes

I'm taking my time, you take it for the night
I'm taking it, but you sit down and you smile
I wanna know what you really think; it seems a little risky now
If you do it 'cause you want to, do it 'cause you can
That doesn't always mean you should

With such a worried heart
You'll spend your lifetime waiting
I'm only asking once
To catch the sparkle fading
Away somewhere behind your eyes

She's got a worry I don't know
Only 19 in this picture
Don't take the mystery away from me; I said I'm sorry
Now promises were made and broken as they're told
It's just become a wasted thing

With such a worried heart
You'll spend your lifetime waiting
I'm only asking once
To catch the sparkle fading
So far away behind your eyes

I'm only asking once
I'm only asking once
So far away behind your eyes
So far away behind your eyes
