

Jimmy Nail, Reach Out

I don't want to be the answer, girl
I don't want to be a dancer on your dreams
I don't want to shield you from yourself
but you know it's sometimes harder than it
seems
in a wicked world there's light somewhere
I care
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
when it seems you've got the broken cup
when you given soap instead of sympathy
when you feel as if you're giving up
there's another road that leads right back to
me
in a wicked world there's light somewhere
I care
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
and I would never steal your time
or make you sign forever
you're free
you're free
take me
take me to your heart
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
reach out your little hand to me
and I'll be there
