

# Jimmy Nail, Something That We Had

words by Jimmy Nail

music by Jimmy Nail/Andy Caine/Danny Schogger

on a day like today I could blow my cares away  
not a sign of a cloud to make me blue  
but then you said goodbye, took the sun out of my sky  
when you told me that you and me were through  
catch a falling star, fall down from above  
put it where you are, wrap it up in love  
on a day like today I could blow my cares away  
not a sign of a cloud above my head  
but then you said goodbye, took the sun out of my sky  
when you told me of something that you'd said  
take me as I am, it's all I have to give  
give you all I have, for all the days I live  
on a day like today, I could blow my cares away  
not a sign of a cloud to make me sad  
but then you said goodbye, took the sun out of my sky  
when you walked away from something that we had
