## Jimmy Nail, Still I Dream Of It

Words and music by Brian Wilson time for supper now day's been hard and I'm so tired I feel like eating now smell the kitchen now hear the maid whistle a tune my thoughts are fleeting now still I dream of it of that happy day when I can say I've fallen in love and it haunts me so like a dream that's somehow linked to all the stars above young and beautlful like a tree thats just been planted I found life today I made mistakes today will I ever learn the lessons that all come my way still I dream of it of that happy day when I can say I've fallen in love and it haunts me so like a dream that's somehow linked to all the stars above a little while ago my mother told me Jesus loved the world and if that's true then why hasn't he helped me to find a girl and find my world? 'til then I'm just a dreamer I'm convinced of II the hypnosis of our minds can take us far away it's so easy now you see someone up there high in heavens here to stay still I dream of it of that happy day when I can say I've fallen in love and it haunts me so like a dream that's

somehow linked to all the stars above
