

Jimmy Robbins, Stuck In The Storm

Verse 1

I'll be leaving soon, but I believe in you

I'll find a way

to make it feel alright, the long days and longer nights

this can be ok

Just promise me it's everything, just promise me

Just promise me it's everything, I'll do the same

Chorus

Cause when the days are getting colder I miss you most

I'm stuck out in a rainstorm, but you're my coat

to keep me safe, to keep me warm

cause without you I'm just stuck in the storm

Bridge

just breathe out a little bit, I'll be there soon

I'm there for you too

Just fly a flag a little bit, we'll be okay

Chorus

Cause when the days are getting colder I miss you most

I'm stuck out in a rainstorm, but you're my coat

to keep me safe, to keep me warm

cause without you I'm just stuck in the storm

and the days are getting colder, I miss you more

then I ever did or ever could before

just open up
