

Jimmy Robbins, The Moon Doesn't Make Roman

Verse 1

I've been dreaming something big
taking place right here tonight
I'm the ground and you're the water
you bring me back to life
I've been losing touch with all
I've ever held on to
but I don't think that it matters
I'm holding on to you

Chorus

Everywhere I wanna go
I wanna go there with you
You take the rain away, but God I love the sun

Verse 2

I've been dreaming something big
taking place right here tonight
I'm the air and you're the sunrise
giving color to my life
I've been losing touch with all
I've ever held on to
but I don't think that it matters
I'm holding on to you
