

# Jimmy Robbins, These Streets

## Verse 1

can you breathe the air that's telling me  
that it's winter

can you feel the finger tips of sky showing me  
i can't forget her

do you try to get up when i'm gone, do you feel like everything is wrong.  
you're empty without me

do you try to breathe the words you hate, tell yourself it's better off this way  
i'm hopeless without you

## Chorus

the ashes of what we felt are raining down  
on to our streets

we cry out for something else, but there's no sound  
getting past our teeth.

## Verse 2

can you taste the rain that's telling me  
the sky is crying

do you know that inside without you  
i'm dying

do you try to get up when i'm gone, do you feel like everything is wrong  
you're empty without me

do you try to breathe the words you hate, tell yourself it's better off this way  
i'm hopeless without you

## Chorus
