

Jimmy Somerville, Heavens Above

Oh well he's got a hold on my heart,
my lust and my everything
He's thrown it around and around and
I'm screaming, don't bring me down

Oh well I took control of his fire
And it kept me warm all night long
Now I find it hard to control the
desire
To keep it burning on

Oh well his love is strong as strong
can be
Oh well his love is strong enough for
me
I've got an angel
I've got an angel
I've got an angel
I've got an angel

Oh well I took control of his fire
And it kept me warm all night long
Now I find it hard to control the
desire
To keep it burning on

Oh well his love is strong as strong
can be
Oh well his love is strong enough for
me
Oh well his love is strong as strong
can be
Oh well his love is strong enough for
me

Heavens above no I can't get enough (4X)

Oh well his love...
