## Jimmy Somerville, Heavens Above

Oh well he's got a hold on my heart, my lust and my everything He's thrown it around and around and I'm screaming, don't bring me down

Oh well I took control of his fire And it kept me warm all night long Now I find it hard to control the desire To keep it burning on

Oh well his love is strong as strong can be
Oh well his love is strong enough for me
I've got an angel

Oh well I took control of his fire And it kept me warm all night long Now I find it hard to control the desire To keep it burning on

Oh well his love is strong as strong can be
Oh well his love is strong enough for me
Oh well his love is strong as strong can be
Oh well his love is strong enough for me

Heavens above no I can't get enough (4X)

Oh well his love...
