

Jimmy Wayne, I'll Be That

Baby lay back
Dream out loud
Tell me the things you wish for
And think about
You ain't gonna scare me
No I ain't gonna run
Come on and whisper your fantasies to me
One by one
They may not be as crazy as you think
[Chorus]
The sun in the morning, kissing your skin
A blanket of night that you're wrapped up in
Your lover, that one best friend
I'll be that, I'll be that
The one that'll stand and fight for you
A safe place you can run to
The truth in the words I Do
I'll be that to you
I'll spend forever
Here in your arms
Learning your body language
Til I know it by heart
And I'll be beside you
Whatever you face
You see diamonds are made
Between a rock and a hard place
If you let me
Baby I can be
[Repeat Chorus]
The sky's not the limit
Cause there's footprints on the moon
Just think how far my love would go for you
[Repeat Chorus]
I'll be that to you
Lay back baby
The sun in the morning, kissing your skin
The blanket you're wrapped up in
Oh I'll be that, I'll be that to you
