

# Jimmy Wayne, She Runs

Fingertips tappin' on the table top  
She's right there with you but she's not  
It's like she hears other voices when you talk  
She can't stop  
She's gotta go, doesn't know where, don't know why

[Chorus:]  
She runs away  
She runs right to it  
So fast she'll run right through it  
I don't ask her where she has to be  
But sometimes she runs to me

She's a born-again burnin' restless soul  
Leaves a sweet empty place when she goes  
Oh i love her and i wanna tell her so  
She says don't  
She can't stay, can't say why, she won't try

[Chorus:]  
She runs away  
She runs right to it  
So fast she'll run right through it  
I don't ask her where she has to be  
But sometimes she runs to me

She needs to be free  
But when she needs someone  
She runs to me

She runs away  
She runs right to it  
So fast she'll run right through it  
I don't ask her where she has to be  
But sometimes  
She runs away  
She runs right to it  
So fast she'll run right through it  
I don't ask her where she has to be  
But sometimes she runs to me

Ooh (she runs)  
She runs to me  
Ooh
