

Jimmy Wayne, You Are

Baby when i look at you
You know it breaks my heart in two
How beautiful you are
I've seen you in a million dreams
Now you're finally here with me
We will never be apart
I wanna hold you forever
That's all i'll ever need

[Chorus:]
You are my love
You are my life
My heart and soul
The truest friend i've ever known
You are my world
All of my dreams
My fantasy, my reality
I love everything you are

Every time i close my eyes
It hits me so deep inside
How real this feeling is
I'm intoxicated by your touch
It's a sweet, sweet rush
I'm in love with your kiss
You're the one i trust the most
You changed me

[Chorus:]
You are my love
You are my life
My heart and soul
The truest friend i've ever known
You are my world
All of my dreams
My fantasy, my reality
I love everything you are

[Chorus:]
You are my love
You are my life
My heart and soul
The truest friend i've ever known
You are my world
All of my dreams
My fantasy, my reality
I love everything you are

Everything, i love everything you are
