

# Jo Dee Messina, Downtime

I haven't been myself these days according to friends  
I tend to lose part of me when my hearts on the mend  
I'll be alright its safe to say  
'Cause just like your love this is only a phase

Oh, I've been on this road a time or two, its nothing new  
I'll get on my feet and over you  
I tell myself that everything will be just fine  
I'm just going through a little down-time

Some might think I've gotten caught up in heartaches aftermath  
But your memory's taken second to a good book and nice long bath  
I must admit it threw me at first  
But I'm convinced I'm over the worst

Oh, I've been on this road a time or two, its nothing new  
I'll get on my feet and over you  
I tell myself that everything will be just fine  
I'm just going through a little down-time

Time is meant to play the part  
In taking care of broken hearts

Oh, I've been on this road a time or two, its nothing new  
I'll get on my feet and over you  
I tell myself that everything will be just fine  
I'm just going through a little down-time

I'm just going through a little down-time.
