Joan Jett And The Blackhearts, I Got No Answers

(Joan Jett/Kenny Laguna)

Little boy asked me why people get mad I just told him they were probably sad Is that true I just don't know I got no answers

So the little boy asked me why the people are sad They're just survivin' they don't know what they have Is that true We come and go I got no answers

When I'm down feeling lonely and confused I just hide it all that's the only thing to do

A little girl asked me why the sky is so grey It wants to rain on this cloudy day Is that true And what will it wash way

I got no answers I got no answers I got no answers
