

Joan Jett And The Blackhearts, Just Like In The M

(J. Jett/R. Browde/R. Byrd/K. Laguna)

Standing on the corner trying to hail a cab
You tap me on the shoulder
My heart about to stop it was fine
You ask me for directions you was going my way
I had no objections I couldn't be blas
You were fine

The move was so electric
You were so magnetic
Just like in the movies
Just like in the movies

Thursday at the Plaza, Friday at the Ritz
You were all I wanted and we seal it with a kiss
You were mine

I felt your arms around me I was so secure
I knew that love had found me I knew it couldn't go
You were mine

We look so fine together
Love will last forever
Just like in the movies
Just like in the movies

Get yourself together
Love to last forever
Just like in the movies
Just like in the movies

I just found a picture dusty on the shelf
Gazing at the mirror smiling to myself
I'm alive

If is but a moment
Wonder where it all went
Just like in the movies
Just like in the movies

If is but a moment
Wonder where it all went
Just like in the movies
Just like in the movies

Just like in the movies
Just like in the movies
Just like in the movies
