

Joana Zimmer, Hearts Don't Lie

I see you standing at the crossroad upon a path
We see it all but always stood together
Through good and bad
So whatever life might take us through
Remember what we've come to
Ohhh Yeah
Hearts don't lie
OohYeah

You were my candle through the darkness when I gave in
And holding back would never your solution and hard to win
So if you believe would make it through whatever this will come to

Hearts don't lie
When you search your mind and that mountain left to climb
Hearts don't lie when the rivers in front of you oh yeah
Hearts don't lie when you need the truth and the gust to pull you through
Hearts don't lie make the one voice you listen to
The voice inside of you

If you listen, don't fight it
Just believe in the voice inside of you
Just running away won't make it better
Cause hearts don't lie

Cause hearts don't lie
When you search your mind and that mountain left to climb
Hearts don't lie when the rivers in front of you oh yeah
Hearts don't lie when you need the truth and the gust to pull you through
Hearts don't lie make the one voice you listen to
The voice inside of you
Cause hearts don't lie
