## Joana Zimmer, Hearts Don't Lie

I see you standing at the crossroad upon a path We see it all but always stood together Through good and bad So whatever life might take us through Remember what we've come to Ohhh Yeah Hearts don't lie OohYeah

You were my candle through the darkness when I gave in And holding back would never your solution and hard to win So if you believe would make it through whatever this will come to

Hearts don't lie When you search your mind and that mountain left to climb Hearts don't lie when the rivers in front of you oh yeah Hearts don't lie when you need the truth and the gust to pull you through Hearts don't lie make the one voice you listen to The voice inside of you

If you listen, don't fight it Just believe in the voice inside of you Just running away won't make it better Cause hearts don't lie

Cause hearts don't lie When you search your mind and that mountain left to climb Hearts don't lie when the rivers in front of you oh yeah Hearts don't lie when you need the truth and the gust to pull you through Hearts don't lie make the one voice you listen to The voice inside of you Cause hearts don't lie
