

# Jodeci, Get On Up

Said it sounds so good to me  
You gotta get on up now  
Say it again, Jodeci  
Get on up  
You gotta get on up now  
Wait a minute, let me tell you  
Everybody grab somebody  
Turn this mutha into a party  
Fellas take your lady's hand  
Ladies go and choose your man  
There's no need to be afraid  
Friday night, let's all get payed  
Positive is the attitude  
Negative is not the mood

[chorus:]

Get on up  
You gotta get on up  
Get on up now  
Let us say it again  
You gotta get on up now  
And you can't sit down

Now that everybody's movin  
Everybody in here is groovin  
Everything is alright  
The atmosphere is so nice  
The DJ is doin his duty  
All the ladies shakin their bootys  
And the night is still young  
And the party's just begun

Get on up  
And you can't sit down  
Gotta get on up now  
And you can't sit down  
Get on up  
And you can't sit down  
Gotta get on up now

Party  
All day  
Never stop  
Never stop  
And you can't sit down

Get on up  
And you can't sit down  
Gotta get on up now  
And you can't sit down  
Get on up  
Everybody just get on up  
You gotta get on up now  
Get on up
