

Jody Miller, I'll Never Love Again

I'll never love again you hurt too much when
I found that you were untrue to me
I'll never love again my broken heart won't mend
I have too many mem'ries that won't let me be
Even if I could I wouldn't take no chance to love again
My heart just couldn't take it if my next romance should end
I'll never love again there's no use to pretend
It would take me a lifefitime to get over you
It would take me a lifefitime to get over you
