Jody Miller, I'll Never Love Again

I'll never love again you hurt too much when I found that you were untrue to me I'll never love again my broken heart won't mend I have too many mem'ries that won't let me be Even if I could I wouldn't take no chance to love again My heart just couldn't take it if my next romance should end I'll never love again there's no use to pretend It would take me a lifefitime to get over you It would take me a lifefitime to get over you
