

# Joe, All Or Nothing

Come on, clap your hands, pack it up

I've gotta have all or nothing, baby  
With me there is no maybe  
If you want to be my lady  
It's all or nothing  
I've gotta have all or nothing, baby  
With me there is no maybe  
If you want to be my lady  
It's all or nothing

I tell you from the start  
Just how things would be  
Expectations for the one that would be with me  
Now I tell you once again  
I hope you'll understand  
Just what you have to do  
If you want a second chance  
I don't need a fooling 'round kind of woman  
A woman who just can't be  
Happy and devoted just to me  
I need an one loving kind of woman  
A woman that I can trust  
Who's faithful and concerned about it

A stylish kind of woman with class, luxury look  
Who treats some man the way that she should  
One who will give me all her love  
One who will have me once and more  
That's the kind of woman I'm looking for  
I don't need a fooling 'round kind of woman  
A woman who just can't be  
Happy and devoted just to me  
I need an one loving kind of woman  
A woman that I can trust  
Who's faithful and concerned about it

I want the best  
I won't settle for less  
I want someone that is heaven blessed  
Someone to hold me tight  
Someone that will treat me right  
And who will understand  
And treat me like a man
