# Joe Bonamassa, Is It Safe To Go Home

Every now and then I get a feeling
And it chills me to my bones
When the lights go down and I'm all alone
Is it safe to go home?

In my own world every night
While the world passes me by
When the fog is lifted and I just don't know
Is it safe to go home?

It's a lonely life for anyone
How can anything change
I pushed you away for fortune and fame
How could I be so wrong
When it all comes down and I'm left all alone
Is it safe to go home?

Is it safe to go home?
Is it safe to go home?
When it all comes down and I'm left all alone
Is it safe to go home?
