

# Joe Ely, Slow You Down

Come here with me  
I wanna slow you down  
I wanna smear the moonlight in your skin  
And put Orion in your crown

Let it all go  
I know that you&#039;re beat  
That truck stop&#039;s just not good for you  
You&#039;re always on your feet.

I wanna slow you down  
I wanna slow you down  
I wanna slow you down

Take off your dress  
I wanna slow you down  
I wanna feel the warmness of your skin  
As your heart begins to pound

Let it all go  
I Know what you need  
That lonesome coyote sounds forlorn  
He&#039;s hurtin&#039; he&#039;s so free

I wanna slow you down  
I wanna slow you down  
I wanna slow you down

Lay a while beside me  
Forget about your cares  
Down in your arroyo  
I wanna climb your silver stairs

I wanna slow you down  
I wanna slow you down  
I wanna slow you down
