

# Joe Ely, Where Is My Love?

Here I am drinkin'&#039;. I am caught thinkin'&#039;,  
I wasn't always lonely like this.

It must be the liquor that makes me remember  
The ones that I swore I'd forget.

But I was unkind. I left them behind  
And now I can just reminisce.

Where is my love on a night like tonight?  
Does she still see the same stars as I?  
Where is my love on a night like tonight?  
Does she still see the same stars as I?

I left pretty quick. I give justice the slip  
I gave up the ones that I love.

I was strung out on need. I had to leave  
But I left myself with no choice.

Now my romance is gone. I'm exiled alone.  
I'm holed up somewhere near love.

Where is my love on a night like tonight?  
Does she still see the same stars as I?  
Where is my love on a night like tonight?  
Does she still see the same stars as I?

Don't ask my advuce on the secrets of life.  
Just buy me another round.

I got no more answers. I took too many chances.  
The path that I chose was unwise.

That's why I'm lonely. I'm broke and I'm only.  
Some wanderer wondering why.

Donde esta mi amor en una noche como hoy?  
Vera el mismo cielo que yo?

Where is my love on a night like tonight?  
Does she still see the same stars as I?
