

# Joe Ely, Whistle Blues

Love done left me  
Walked right out the door  
Found herself a train passing through  
Left me here wondering just what to do  
Train please dont whistle that way no more  
Please dont whistle that way no more  
Love done left me walked right out the door  
Who can I talk to  
When my day aint right  
Wholl be talking me to sleep  
When I awake in the middle of the night  
Train please dont whistle that way no more  
Please dont whistle that way no more  
Love done left me walked right out the door  
Whose gonna laugh at  
Every little thing I do  
Wholl be holding me close  
Making me glad when the day is through  
Train please dont whistle that way no more  
Please dont whistle that way no more  
Love done left me walked right out the door  
My babys gone now  
Walked right out of sight  
Left me here sitting on my own  
Counting sheep and talking in my sheep  
Train please dont whistle that way no more  
Please dont whistle that way no more  
Love done left me walked right out the door
