

# Joe Menzies, Least Then It's Done

You'd always change the first time,  
on the count of three  
At least then it's done  
With clenched teeth and closed eyes,  
I will make you see  
At least then it's done

And still we were having so much fun  
At least then it's done  
The sooner we can get this over,  
the sooner we can go  
At least then it's done

Or we can lie and say we did,  
they will never know  
At least then it's done  
We'll say that we were having so much fun  
At least then it's done  
We'll say that we were having so much fun  
At least then it's done

You'd always change the first time,  
on the count of three  
At least then it's done  
With clenched teeth and closed eyes,  
I will make them see  
At least then it's done

We'll pretend that we were having so much fun  
At least then it's done  
We'll say that we were having so much fun  
At least then it's done
