

Joe Pace, You Just Dance

Chorus

You just dance
Place your problems in the
Master's hands
Don't you worry about your circumstance
Here's your chance
You just dance

Verse 1

The days seem to get more tough
Don't know what to do
The road seems to get more rough
Tryin' to make it through
You need to remember
To just let go and surrender
God understands and He has a plan

Verse 2

Problems surrounding you
Just can't see your way
Trials you're goin' through
Seems worse every day
You've got to be strong now
The Lord's gonna fix it somehow
There is a way and it's through
your praise

Bridge

Sometimes you cannot see
What the end will be
Just dance for the victory, yeah!
Sometimes you want to cry
But hold your head up high
Your deliverance is nigh!
Just dance!

Vamp

Get up outta your seat
You've already got the victory
Do yo' dance, do yo' dance,
do yo' dance
