

# Joe Wilson, You Can't Be Wise And In Love At The

A smart man once said  
"You cant be wise and be in love at the same time"  
That's something i've come to realize  
I did my best to save my life

You miss those days you felt so young  
You miss that face before the damage was done  
To stubborn to back down, you know I cant be ground  
Saying these things out loud  
To stubborn to back down, you know I cant be ground  
Saying these things out loud

You think im wrong tonight, But I swear im right, im not fooling around  
Oh and I know you dont need my advice  
But after tonight just get out of this town  
Get out of this town  
Get out of this town

Dont let these scares on my skin  
If you want to see the damage just look within  
Its underneath, its burried deep, but now its surfacing

You miss those days you felt so young  
You miss that face before the damage was done  
To stubborn to back down, you know I cant be ground  
Saying these things out loud  
To stubborn to back down, you know I cant be ground  
Saying these things out loud

You think im wrong tonight, But I swear im right, im not fooling around  
Oh and I know you dont need my advice  
But after tonight just get out of this town
