

Joe, I Don't Believe You

All of this time I've been nothing but good to you.
Do what I did just so we could survive.
Took in your lies for awhile now I see through you.
I still have my pride and it keeps me alive.

See I don't believe you.
Well I don't believe in you.
How can I trust you?
So now whatcha you gonna do?
Cause it's always about you.
This world is only about you.

All of this time I've been nothing but good to you.
Did all I did just so we could survive.
Took in your lies for awhile now I see through you.
I still have my pride and it keeps me alive.

I don't believe you.
I don't believe in you.
How can I trust you?
So now whatcha you gonna do?
Because it's always about you.
This world is only about you.
I think I'm better without you.
(Better without you) x repeat
Because it's only about you.

I don't believe you.
I don't believe in you.
How can I trust you?
So now whatcha you gonna do?
Because it's always about you.
This world is only about you.
I think I'm better without you.
(Better without you) x repeat
Because it's only about you.
I guess this song is about you.
