

JoEveritt, Fission

fission is a vision, it's a mighty big decision
it's a quest for the best who are up to take the test
it's a sign to remind that the world is in denial
it's a way to escape what you're feelin for a while

it's a bitch, a really big bitch
cause we're stuck inside a bubble
and it isn't very subtle
and I don't see how anyone can sleep!

fission the reaction is the opposite of fusion
it's a notion, an explosion, a wave of jet propulsion
there's a lesson to be learned, and a page to be turned
there's a way to co-exist if we could only be concerned

but we can't, and we shant
cause we're stuck inside a bubble
and we're in a lot of trouble
and i don't see how anyone can sleep!

the light was a soup made of quarks
anti-matter lost the war for sure
and for the answer i'd lightly say why?
but to ask i'd most certainly die!

yeah, aww yeah
cause we're stuck inside a bubble
and it's impenetrable
and i don't see how anyone can sleep!
