

# Joey Daniels, Hands On You

Vers 1

A rumor don't grow no moss in this town  
The one you started been makin' its rounds  
I'm calling you up just to hear it from you  
Do you crave my kiss like they say you do  
'cause you've got some nerve  
It's time you get what you deserve

Chours

Wait 'til I get my hands on you  
Hold you tight and before I'm through  
You'll be beggin' me to turn loose  
Wait 'til I get  
Wait 'til I get my hands on you  
My hands on you

Verse 2

If you've been touched but you've never been moved  
Believed in love but it never felt true  
You're thinking maybe I'm the one  
Three little words on the tip of your tongue  
Well say it to my face  
I'll put you in your place

Chours

When the lights are low  
You'll be wishing you told me a long time ago  
Chours
