

Joey Daniels, Miracle

So many lonely nights
I spent dreaming of someone
To come and save me, save me

From my safe little world
That I gotta leave behind
So I can feel again, breathe again

And I saw your face
And my whole life changed
Yeah I knew you were the one
Yeah

And I'm all today
Now that your some day
Will mend my lonesome heart

Baby you're my miracle
My angel
The stars in the sky
The light on my life

Baby you're my miracle
My angel
The reason I breathe
You're all I'll ever need

Baby you're my miracle

Lookin' in your eyes
I know that I was always
Meant to love you
To love you

And every step that I took
Is leading me to you
I knew I'd find you
Yeah I'd find you

Yeah that fatefull day
When you came my way
Yeah you opened up my heart
Yeah

You made me feel alive
And deep down inside
I know we'll never part

Baby you're my miracle
My angel
The stars in the sky
The light in my life

Baby you're my miracle
My angel
The reason I breathe
You're all I'll ever need

Baby you're my miracle

I want to thank you for
All the love you've given me
I promise you I'll never let you go

Baby you're my miracle
My angel
The stars in the sky
The light in my life

Baby you're my miracle
My angel
The reason I breathe
You're all I'll ever need

Baby you're my miracle

Na na na na na na naah

You're my miracle

Ooooo, you're my miracle
