

Joey McIntyre, With A Girl Like You (One Night P

[Chorus]

One night is not enough with a girl like you (yeah,
yeah, yeah)

I won't let you get away girl, I'm gonna see it
through

One night is not enough, not with a girl like you

Give me give me your love baby I can't get enough

I need another dose of you baby I like your stuff

Give me a straight jacket baby and throw me in a
padded room

'Cause I'm climbing the walls and I can't come down
off of you

One night is not enough with a girl like you (yeah,
yeah, yeah)

I won't let you get away girl, I'm gonna see it
through

One night is not enough

Well I took your hand and I let you out on the floor
And I gave you everything I had but you wanted
more

With your bedroom eyes and your "hourglass" thighs

I knew (oh, yeah)

I'd be doing the things you tell me you want me to
do to you

With a girl like you (yeah, yeah, yeah)

One touch baby I'm falling for you

I hear your body calling for me desperately

One night is not enough with a girl like you (yeah,
yeah, yeah)

I won't let you get away girl, I'm gonna see it
through

One night is not enough, one night is not enough

With a girl like you

One night is not enough, girl I can't get enough

One night is not enough not with a girl like you
