

Joey Tempest, Outside Heaven

Im down the local universe
sometimes when I need some space
waiting outside heaven simply just to see her face
to know the beauty when she moves
you might as well explain the sky
cause I feel, just as long as youre out there
I can breathe do anything go anywhere
yes I know just as long as youre out there I try, I try
I can dream what you can see
only when I close my eyes
so high an aspiration for such an ordinary guy
to know the beauty when she moves
you might as well explain the sky
cause I feel, just as long as youre out there
I can breathe do anything go anywhere
yes I know just as long as youre out there I try, I try
