

Johan Becker, After The End Of The World

You don' t believe that love can last
Always prepared for disaster
Stuck on the ground with fear of flying
Wish I could help your heart to see
Love is a light not a fire
You're always scared The flame is dying

When you have a love this strong
Then forever doesn't seem that long

'cause after the end of the world
I'll be there beside you
After your bridges have burned
I'll be there to guide you
You're here in my heart 'til the end of the world

Forget all your worries and your doubts
I couldn't make it without you
Baby I need you to believe me

When you have....

'cause after the end of the world.....

When you have a love this strong
Then forever doesn't seem that long
This is how we're gonna stay
'Til eternity's a breath away

After the end of the world....
