

Johan Becker, I Don't Wanna Change The World

don't care about fame and glory
or if the rivers all run dry
don't care 'bout that same old story
as long as you're lying by my side

You're all that I need
You're making me feel damn good so don't mess with my reality

I don't wanna change the world
as long as you're here with me
It's a wonderful place to be
I don't wanna change the world
Don't wanna make history
I don't care how the pages turn
I don't wanna change the world

Don't care about stormy weather or 'bout the worries in my head
don't care if I live forever
as long as you're with me when I'm dead

You're all that I need...

I don't wanna change the world...

I don't wanna change the world
as long as you're with me

I don't wanna change the world
Baby as long as you're with me
it's a wonderful place to be

I don't wanna change the world

No I don't wanna make history
I don't care how the pages turn

I don't wanna change the world
I don't wanna change the world
it's a wonderful place to be

I don't wanna change the world
I don't care how the pages turn
I don't wanna change the world
