

John & Audrey Wiggins, String Of Bad Love

(Stan Munsey Jr./Jim Sandefur)

You say it must be a miracle
Your heart even beats at all
After all that you've been through
You fell for too many promises, every line
And it was you that always took the fall
I know you're hurtin but don't be sad
I'm here to tell you that you've just had

A string of bad love
But don't give up
One good heart could change your luck
You've been tangled up and tied down long enough
Baby let me break the string of bad love

I've done some time on that trail of tears
And I swore I'd never love again so I know what you're going through
I fell in love with a heartbreaker every time
The road took another bend
I got over it, so will you
Have a little hope, you've just been through

A string of bad love
So don't give up
One good heart could change your luck
You've been tangled up and tied down long enough
Baby let me break the string of bad love

If you want to give it another go
Together we could take a shot
At making a love that won't unwind
Maybe we could tie a know, in that

A string of bad love
But don't give up
One good heart could change your luck
You've been tangled up and tied down long enough
Baby let me break the string of bad love

One good heart could change your luck
You've been tangled up and tied down long enough
Baby let me break the string of bad love
Baby we can break the string of bad love
