

# John Berry, I Promise You

After all that we've been through  
I can't believe it's me alone here with you  
Every touch tells me it's real  
And the words don't come close or say how I feel

(I promise you) I promise you I'll never give up on us  
(I promise you) I promise you always the best of my love  
(I promise you) I'll be the one you can turn to because  
If your wishes fall through I'll still promise you my love

With everything your heart can hold  
And all the whispered words you've never been told  
This is where we belong in love from now on  
(I promise you) I promise you...

It took a little time to see what should have been perfectly clear  
Now I can't believe I spent one minute without you here  
(I promise you) I promise you...  
(I promise you) I promise you...
