

# John Butler Trio, Believe

Theres no need to cry  
Just hold your head up high  
All you got to do is Believe...  
In your self  
Cos there will be no-one else  
Who will ever leave...  
You alone anymore  
Cos in yourself you be sure  
in who you'd be...  
Exactly who you are  
Cos you could go so far  
All you got to do is believe...  
Take sometime with yourself  
Think about something else  
If you cannot be thankful  
for what you got  
Cos take a look around  
It is all so beautiful  
So what the hell is there to worry about?  
Worry about, worry about...  
There's no need to worry  
Run around in your scurry  
All you got to do is believe...  
In the universe  
Cos this man it always works  
All you got to do is release...  
All your expectations  
In any situation  
All you got to do is see...  
That it's all taking place  
In it's own grace  
All you got to do is believe  
Take sometime with yourself  
Think about something else  
If you cannot be thankful  
for what you got  
Cos take a look around  
It is all so beautiful  
So what the hell is there to worry about?  
Worry about, worry about...
