

John Cafferty, Garden Of Eden

It was the garden of eden; the beginning of time
Adam said to Eve, "Little girl, I wanna make you mine!";
She said, "Wait a minute, big boy, not so fast!
I wanna think this over; I wanna love that's gonna last!";
Eve said to Adam, "Catch me if you can!";
It's been the same ol' story ever since the world began.

Honey, I'll give you anything in this great big world
She said,"Forget those rotten apples, I'll take some diamonds and some pearls!";
He said, "I don't know exactly what it is you mean!";
And then since she could remember she had this pretty dream
Eve said to Adam, "catch me if you can!";
It's been the same 'ol story ever since the world began.

Well I've got this hungry feelin' my blood is runnin' hot
I want you more than ever I'm wanting something that you got
Said come on little boy, come and sit beside my fire
Wrap yourself around my blanket, I'll cool your desire

She said, "wait a minute, Adam, honey, gotta a reputation to protect.
If you want my love and kisses it's gonna take a little respect.";
He fell down on his knees and looked up in the sky
He said, "I think i get the picture Lord, there's more to this than meets the eye!";
Eve said to Adam, "Catch me if you can!";
It's been the same ol' story ever since the world began.
