

John Cafferty, Hearts On Fire

Silence in the darkness creeps into your soul
Envy moves the light of self control
The gate that holds you captive has the door
Burnin' with determination to even up the score

Heart's on fire, strong desire, rages deep within
Heart's on fire, fever's risin', high
The moment of truth draws near

Time will not allow you to stay still, no
Silence breaks the heart and bends the will
Defense is guilty passions out of control

Rules and regulations have no meaning any more

Heart's on fire, strong desire, rages deep within
Heart's on fire, fever's risin', high
The moment of truth is here

OH!

Is here
Oh yeeeeeeaaaaaah!

<Instrumental & amp; guitar solo>

Heart's on fire, strong desire, rages deep within
Fever's risin', energizin', right up to till end

Heart's on fire (heart's on fire)
Strong desire (heart's on fire)
Rages deep within

Ooooh

FADES-

Fever's risin' (heart's on fire)

Energizin' (heart's on fire)

Right up till the end

Ooooh

Heart's on fire (heart's on fire) (heart's on fire)

Strong desire (heart's on fire)
