

John Cafferty, Hearts on fire (RockyIV)

Silent darkness creeps into your soul
And removes the light of self-control
The cave that holds you captive has no doors
Burnin' with determination
To even up the score
Heart's on fire
Strong desire
Rages deep within
Heart's on fire
Fever's rising high
The moment of truth draws near
Time will not allow you to stand still, no
Silence breaks the heart and bends the will
And things that give deep passions are your sword
Rules and regulations have no meaning anymore
Heart's on fire
Strong desire
Rages deep within
Heart's on fire
Fever's rising high
The moment of truth is here
Is here
Heart's on fire
Strong desire
Rages deep within
Heart's on fire
Fever's rising high
Heart's on fire
Strong desire
Rages deep within
